

Leading Countries Join Hands in Suppression of White Slave Traffic.

AMERICAN MARKET DEMAND IS LARGE

Officials Declare Publication of Facts Unearthed Would Implicate Prominent Persons.

The international arrangement, concluded within the last few months between a considerable number of important countries, for suppression of the international white slave traffic, is just being put fairly into effect. It is con-Adently believed that most important results will be secured, as the governments parties to it have all shown the greatest desire to make their co-operation effective.

The nations that have united in the establishment of a treaty for handling this practice, are Germany, Denmark, Belgium, Spain, France, Great Britain, Holland, Italy, Portugal, Russia, Sweden, Norway, and Switzerland. International Vice Trust.

It is well known that international co-operation in handling this traffic was made necessary by reason of the international vice trust which was to be combatted. Officers of the Government Secret Service, who have been assigned to work on the American branch of the vice trust, have within the last two years made some discoveries and revelations which are truly astounding. Indeed if the country were given all the facts concerning this trade in wo-

the facts concerning this trade in women for purposes of vice—even all the facts which have come into the possession of the Government—the result would be an unheard-of shock to the sensibilities of the nation.

In a considerable way, the American market is the object of the international vice trust. While there is a considerable exchange of women among some other countries, yet of those taken from European countries much the greater number are sent to the United States. Australia gets a considerable number, but nothing like so many as it did in former years, and, of course, not nearly so many as the United States, because Australia's population is very small.

Against Measure Urged by Beveridge.

ing of Two Bodies in Woods.

The Secretary doesn't want to apply the Interstate commerce act to the perch, or to subject the bass tribe to the anti-trust law; but he does have in mind to get Congress te adopt some rigorous fish-protection laws which will supplement those of the States, and prevent destruction of fish when thay get into interstate waters.

The Secretary finds that there is the utmost need for protection of the fish in American rivers, if they are to be saved from entire extinction.

Senator Beveridge of Indiana will endeavor to get action on his bill to prevent child labor as soon as possible after the holiday recess.

The bill is now pending in the Senate Committee on Education and Labor and thas been there since last session. Senator Beveridge hoped to get the committee to act on the bill before the holi-

Beveridge wants the committee to act and is anxious to get the bill to the floor, either by a majority or a minority report. The constitutional lawyers of the Senate are adverse to the bill, because they believe it contemplates a dangerous stretching of the interstate commerce clause. Southern Senators in particular are antagonistic. The bill if passed would effect great changes in conditions in many of the Southern Senators bersand the girl to their death.

Senator Beveridge is flooded with letters and petitions in behalf of the meansters and petitions in the period of the poison of the period of the poison of
